

# KNOWN ISSUES

- User Email string is not aligned correctly on the Index page
- MODAL ISSUE : When selecting a date on the Bootstrap Datepicker API, the hours of the day or night sometimes doesn't properly display.
- MODAL ISSUE : The day and night hour select picker doesn't properly gray itself out at the beginning when NOT selecting the day or night schedule, the user has to press the Night radio input first to properly gray the selection.
- MODAL QUERY ISSUE : Allergies not added in due to unknown query error (Allergies is Null).
- Navbar is NOT responsive as intended. (It is technically but it is not inside of a collapse function)
